

FOR THE FIRST TIME YOU'LL UNDERSTAND THE JFK ASSASSINATION WHEN YOU STUDY
THE EVOLUTION OF LEE HARVEY OSWALD
 AN ALL NEW 18x24 FOUR-COLOR POSTER OF THE MANY FACES OF LEE HARVEY OSWALD

Long troubled by many Oswald photos that seem to be someone else, JFK researcher Jack White has assembled 77 facial photographs of "Lee Harvey Oswald" into an 18x24 poster that demonstrates there was more than one person using that name. You can prove to yourself, by comparing these pictures, that Oswald's identity probably was "loaned" to an intelligence agent...a conclusion inescapable when you see for yourself there are two or more Oswalds. This is possibly the most important study aid for JFK researchers in 30 years! Included is a physiognomy ratio table to help you analyze any Oswald photo. Poster is printed on heavy paper in 4 colors. Posters (plus ratio table) are only \$15 each (plus \$5 postage, mailing tube, handling and sales tax).

THE MANY FACES OF LEE HARVEY OSWALD
 Unmasking the secret agent framed as Kennedy's killer!

For more than 25 years photoanalyst Jack White has studied photos of Lee Harvey Oswald and has reached startling conclusions that will rewrite the history of the Kennedy assassination. Every American needs to see this astounding proof of conspiracy and governmental coverup...how the official "lone nut assassin" story of the Warren Commission withheld from the public the true identity of the accused assassin "in the interest of national security." When you see White's analysis you too will understand who Oswald really was. You will see a man who may have helped fabricate the fake backyard photos, and his possible relationship with Oswald. White's acclaimed study of the I.D. photos of Oswald answers questions that the Warren Commission and the HSCA failed to ask about the framing of Lee Harvey Oswald in the governmental coup which killed President Kennedy!

70 minutes (pre-production estimate). VHS only.
 Produced by Jack White from his photoanalysis. Script & direction by Jim Marrs.

FAKE, the forged photo that framed Oswald.

Jack White's photoanalysis has proved beyond a doubt that the famous "backyard photos" of Lee Harvey Oswald are clever forgeries used to incriminate Oswald by the planners of President Kennedy's execution. White served as consultant to the HSCA because of his expertise in photography and photoanalysis, and testified regarding his research on these mysterious photos. Experts have called his analysis brilliant. Now, judge for yourself whether these incriminating photos are real...or fake!

50 minutes. VHS only.
