

JL- The National Star is nothing of not fast. Spoke to John Hanrahan last night. On Sunday he saw the rough draft of a release dealing with their coming use of the Ford stuff. It was only Sunday that I agreed, as I told you....Jerry phoned to let me know the "live show" was aired, as you'd been told it would be. Vreas-puff questioning, he says. He's mailing the cassette tape he made to you. I told him I think you should have the clearer copy. He will dub a 1 cassette for me from his reel. He used both....He says that Paul had nothing to say about the book. But was very nice to him.... Did 15 minutes this evening on Canadian Broadcasting Radio net broadcast, talk show, with Harry Brown. The producer promised me he'd give address and price but it was not done while I was being aired.... Not a single Dallas order yet and this is the fifth full day after the show. To date one inquiry only from Mae's show....What is odd is the tiny percentage of so-called "critics" and "researchers" who have ordered copies. And none of the nuts, except that an order from a Cambridge bookstore may be for that gang. None that I can link to Skolnick or Weberman/Grossman, anyone in LA save Ray Marcus, anyone in SF by name and no reason why any there should be by indirection. So, almost none at all...Lil has the individuals on the mailing list read for sending after the labels are stuck to envelopes, was about through the bookstores when she last told me and should finish with the libraries before this is all picked up tomorrow. Then she'll update, adding to the list those she had laid aside for this purpose. She won't get that done in time for these students to include them. I'll probably ask that the stuffed but unaddressed envelopes be left for me at your place. Being done near Greenbelt. Maybe if I can get the rest of the list to you you can get one of Carven's to put labels on? HW 12/11/74
