Dear Hal,

Thought you would enjoy your friend, Hal Urd, on Feltzer's "Assassination Science" and Tymman's "Bloody Treason."

Notice his ^{and} photographic white-works.

Urd seems to me unfair to JFK and RFK.

I want the truth about who killed JFK - not a "political" ~~truth~~.

I once believed Hiss and Julius Rosenberg were "innocent".

Evidence convinced me otherwise.

The Lane/Freed crowd and their Buwell "sprouts" like Tymman want a "political" ~~truth~~.

These are open cases. As for Marina, I hate to agree with Redlich when he said Marina was died "repeatedly." Like many W.C.

witnesses, who probably know more than the bar stool

On "Case closed" on The Loveably Episcopa?

Even Livingstone credited Newman and Adams in their 1974 "Murder from Within" for "decoding the entire baggage of the film. Their research and insight into the making of the film was extensive and detailed -- "Do you have

quote from page 144 of Killing The Truth (Carol and Greg, 1995).

Of Tymman thinks Linton is a "poko", he can "waste 30 bucks and buy Murder from Within" from Dave Hawkins in Quebec.

Even the usually more subtle Melanson argued in a Fourth Decade article the Zepherus film could have been altered at N.P.I.C.

I don't get the Determination Theory. You alter Zepherus, Riv etc. to graphically show - CONSPIRACY BIG TIME!

I include The National Enquirer article to show you crazy stuff on internet. Not as crazy as Jim Meus! Go stay well,

why you?
