Dear Hal,

I got married two weeks ago. F. Scott Fitzgerald wrote, "There are no second acts in American lives."

Perhaps there are.

I watched The Ray Jigle Hearings on C.N.N. The F.B.I. Lab Report made a proposal of you.

The internet at least surpasses the traditional media who attacked the CIA drug connection which was uncovered by McCoy twenty five years ago!

"Probe" quoted you appropriately.

As for the emolument, Bob Guadern was crucified at the O.J. Civil trial.

I can't believe West would appear on "Alien Autopsy".

The comments by Roselli
unsubstantiated in various
ways I don't buy the
Mob hit theory.

Hope this letter
finds you well.

Sincerely,
Ed

Dear Ed,

Congratulations on and a long and happy life in your marriage!

If Ray will not be able to benefit from anything now. The state is refusing him permission to leave for Pittsburg to see if the liver transplant can save his life. As you say in a different way, what is factual and is coming to light is not new.

I understand it was Baden who recommended Groden to the Simpson lawyers.

I do not know what has appeared up there or was on your cable but the Judith Campbell Exner tale of the Kennedys financing that silly mafia plot against Castro is fiction. She has made much up. The plot was Ike's and it dates to August before the election. I have the CIA's internal record in which it states that only six people knew about it and they were all high in the CIA. Bobby Kennedy learned of it when informed of it by Hoover in May of 1961. That was after the bungling wire man Maheu got himself caught in Vegas and the whole thing, while getting little attention, was exposed.

I have no recollection of that Probe piece!

I think it was clear all along that the mafia was doing no more than making a gesture and that it would not have gotten Castro killed.

Exner says she carried money from JFK to Giancana to pay for that job. The CIA says it offered the mafiosas ~~995~~ \$150,000 and they refused to take a penny of it.

Thanks and best,

Hal
