Dear Ed,

Thanks for the ad on Bishop. I hope you can, without sacrifice, keep me up on the reviews, appearances, etc. If I can know of his appearances, I can ask for equal time. I've asked JP to try and learn agencies Putnam and Doubleday use and I plan to ask them.

I wish I could find the time for the doctrinal writing. Somebody has to lay the factual foundation, and I am oppressed by the belief that if I do not make the record it will not be. Much of what you address in your 9.16 is planned for TIGER, which was researched before any book appeared. And some of it was in COUP, in the now-completed POST MEMENTO.

Time pressures are enormous. There is so much I should be writing I could, were I eight people, be writing eight books already researched, simultaneously.

I think you'll be surprised when you see the new last part of PM. I have to cut first, sift second. Hope to be able to contrive financing for private printing and have a friend who is going to condense and popularize the whole thing in hopes of attracting commercial interest in the short work.

My judgements may be wrong, but even when Ted Kupperman told me in early 1967 that if I completed TIGER then it would sell 400,000 in hardback, I still felt I had to do as I did. In retrospect, the only difference I see is in my continuing impoverishment. So, I must make the record.

I do appreciate your encouragement.

Hastily,

Dear Howard,

Advance printing - 55,000 - for
Bishop - termed "very large". Enclosure
from N.Y.T. of 9/16.

In my opinion your material
could be handled in a "mixed
up" narrative approach along the
lines of Heritage in form only.

You possess great material
and it would appear that
this could be "incorporated"
into a popular "Fair Deal"
with very wide appeal not
limited to the A. issue.

Simply for one example
of this method.

Title: America: Terminated
With Extreme Prejudice

Structure

Coming of Secret State
Foreign Involvement Seen As
Preparation For Coup d'Etat

Domestic Espionage - Warol,
Foundations, Fronts, Agent
Orwold, Kaplan Fund etc.

Coup d'Etat of Nov. 22 -
An American Counted Revolution -
P.M. I, II

Vietnam - CIA Involvement
and Secrecy

Other Assassinations
With Marcos emphasis
A host Country?

Of course, this is simplistic
but the approach is obvious.

Your investigative genius
deserves the widest
circulation and commercial
success.

Best Wishes,
