

11/1/71

Dear Ed,

Vy hastily. Urlet 27 with quotes text LBJ on RFK's control of ass investigation of espical importance at this moment for two reasons, hence I'd appreciate states those three pages:

I go into this in the new last part of POST MOREEM and would like to update. Right now it will take much work. Later, more.

This is becoming the ~~xxxxx~~ beginning of a hassle from which I'll disassociate myself with those who, while proclaiming a holiness greater than that of the Pope, neither go to church nor understand the "ible.

In fact, it is one of the things a refusal to compromise on which is probably costing me the cost of a ~~privatex~~ printing of PM.

If you can do this promptly, so I can have it by Sat., I'd appreciate it for other reasons. Jerry is going to be hear and prepared to argue, whether or not about this. I want to satisfy him on those things I can. There may be serious errors <sup>^</sup> have made in other areas and, if this is the case, he should not be satisfied. But this one is becoming a stickler, alas.

I'm afraid our old priests and priestesses, locked into the cliches and knowledge of the past and without evil intent, are doing what is not good.

How fortunate one could be if he had only enemies!

Thanks, and best,

Dear Harold,

Lyndon's The Vantage  
Point touches briefly, if  
unaccurately, on Nov. 22, 1963.

Paints.

Walter C. "original" idea of  
Eugene Postow.

R.F.K. insisted on McClay  
and Duggan.

R.F.K. led F.B.I. in its  
"24 hour a day" investigation.

L.B.N. persuaded Warren  
to solve and call not to  
establish Texas Commission.

Orswell's death may  
mean the full truth will  
never be known.

Thus, in 3 pages L.B.N.  
is L.B.N.! A gross liar.

What caused top the  
C.B.S. deletion of L.B.N.'s doubts  
of Orswell's sole guilt!

Thus one called Ark. who  
does believe The W.C.?

Pauley in his autobiography  
(Adam By Adam) claims "oil  
billionaires" were the force  
behind Dallas albeit I think  
oil interests represented a  
false response at cover.

Sincerely,

A handwritten signature, possibly "C", written in dark ink. It consists of a large, stylized letter 'C' with a long, thin vertical stroke extending downwards from its base.
