Dear Harold,

Sepia articles great!
Picture "recalled" very
striking!

Have no doubt Tiger
Popularization would sell.
Perhaps best approach would
be an article on CIA Domestic
Intelligence Operations in
a media style.

This would, if published
(and good presentation would
mean publication) do the
following: Open doors for
an advance on Tiger.
Broaden Hawk Reputation
away from "Assassination
Author".

The time is ripe for
Tiger as a Commercial

property.

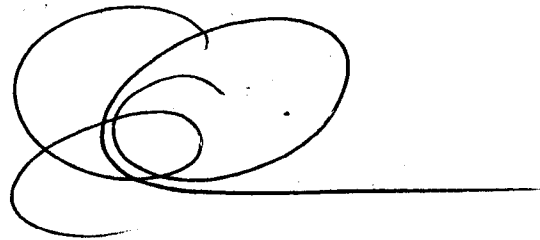

Am articles would provide a level but it must be on the level of The American Counter-Revolution.

Sensational, alarming, factual but easy to grasp.

There is a slight substitution involved but as per ~~Sartre~~ Sartre dirty hands can do clean work and this issue must be presented to all.

Popularization is essential.

Best Wishes,
