

He also phoned a number of times about this, once 11 p.m. and then again four hours later, 3 a.m. I urged him to forget the entire thing because he would be able to do nothing and because I did not believe what he said a friend was telling him. I urged him to have nothing more to do with that person. For the most part it had nothing to do with the JFK assassination but did relate to the federal agencies.

Jeann^{Sueberg} was a lovely
woman and completely
"straight!"

A lesbian drug addict!
Romain never exploited
her.

Biels In Peru is
about love - not perversion.
Romain had this concept
before she met Jean.

She was not the
model for General
Almazo's mistress.
Romain did not alter
the book in English
to delete a description
of her as an "irresistible
lover."

She was far from
a " nymphomaniac " .

She had two lovers
before marriage. One,
really.

Her fears were all
too real. Not fantasies!

How can any woman
not be paranoid when
she is spoken up
by her own voice on
the phone making
what Hoover calls "daisy
grams"!

Her weight gain
was "overmedication!"

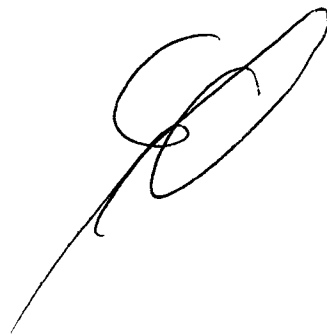

with Warren Beatty or
Amy Poehler.

For this Red Carpet
wanted but she never
came.

And then she -
of all people - is
labeled promiscuous/
lesbian etc.

How can they do
this, Harold, knowing
it's a lie!

Why did she
represent a threat?
