

Dear Ed,

5/9/81

Lil told me of the good and the bad news in your letters. I was in the hospital 18 days. This is the beginning of the second full day at home. And I've learned that I now get tired very easily, too.

I'm glad you came out of your problem OK. Sorry for Bernabei, from whom I'd not heard for years. He did not respond the last couple of times I wrote him and I had no idea why. The last time I saw him he was badly deteriorated. I attributed it to the breakup of his marriage and felt he'd snap back. He later indicated that he had taken a new hold on ~~life~~, etc., and then I heard nothing.

I don't have time to go into the Lifton dishonesties fully. Briefly, he knows that at each step his careful reconstruction is impossible. Honest and incorruptible as he is, Lifton merely omits what disproves the impossible theory without which he'd have no book at all. Like was the backgate at Bethesda open for the spiriting in of the corpse? No, and no attendant to open it. Was there any mystery about the choppers, ambulances and caskets? None at all, save for his contriving of them.

All one familiar with the literature need do is examine what else there is in Lifton's dickdaring. All that he claims as his original work is the published work of others. Knowing this he pretends it is his work. Need one have more to bear on his integrity-or lack of it?

Everyone was wonderful to me in the hospital- all three times. This last one apparently was a close call.

To the degree possible I pursue FOIA matters and obtain more records. The total number by now is impressive.

I do want to work myself to where I can write again.

Hope everything continues to go well with you.

Best wishes,

Dear Ed:

Your two letters arrived yesterday and today. We were sorry to learn your health problems and hope that you are improving as rapidly as possible.

We had not known about Dick Bernabei, and are sorry to learn of his death. Thank you for telling us.

On Lifton I have no comment but will leave that up to Harold when he is able to do so. I can't say when that will be as he is currently in hospital again, having had further surgery to relieve the pressure in his leg. The operation apparently is successful and we are hopeful that the condition will not develop again.

Best wishes from us both.

Sincerely,

Lillian Weisberg

Dear Harold,

Sorry to hear of
your medical problems.
Warm weather should be
helpful.

Recovering from a
mental breakdown is a
slow and frustrating
process. I suppose that
I'm fortunate that it
was contained.

No doubt you have
heard of Dick Bernabei's
death. He died from brain
damage after a fall on
the ice. Previous to the
accident he had had
a total breakdown and
according to his friends
at Queen's was a shell
of his former self.

What a tragedy.

Besley's book is a
dulle and completely
unoriginal work - a re-
hash of the H.S.C.A. Report.

That report simply stole
material from you and
Crime "pulp magazines" from
Scott, Galt, Garrison et al.

The fact that Oswald's
mother dated a Marxist
Associate proves Gar-
son's culpability?

Forzi dates a fine actual
insignificant as it reveals

The total non-factual investigation
by the H.S.C.A. The Warren angle
raises only the question of
why Tony waived DeLoach such
a reward.

I feel that autopsy
data may have been obtained
and that the destruction
of reports raises serious
questions. Substitution of
real X-rays of another
body would be less
likely than photographic
falsely.

Huston's body "suit" -
presents civil servants
like Great Defaming like
the amazing Ronali. Since
such a plot required
close planning, why Barker
since he of the work
was defamed Kennedy, it
would have been easier
to find from one direction.
Huston says in effect: only
this can explain the
contradictions unless the
Barkesole personnel and
others lied. I assume
they did!

Like The Umbrella Man,
"The Impostor" in Oswald's
grave, I can only suspect
another level of cover-up.
Frank Snapp has written
a novel on the subject.
He has told journalists
that Ruby may still be
alive. Another "suit" no
doubt.

Keep in touch. Your
contribution to Amazon
Huston has been enormous
and the comparison with
Solzhenitsyn is not mere hyperbole.
Always,

Dear Harold,

Last Tuesday The C.B.C. Program, "The Fifth Estate", had a documentary with Daniel Hutton and some of his witnesses. It appeared to be very impressive. You're dead with one of the show's producers.

Have you written a critique of The Best Evidence? If so, I'd love to study it.

The W.C. and H.S.C.A. left so many doors open that anyone can walk in with a letter "resolution".

Still, Hutton has gained recruits because no one has refuted him. Blakey told The Fifth Estate that these things should be looked into! Can you imagine the gall! What was he

supposed to do?

Newsweek reported that
Lone agreed to do legal
work for The Nazi Party
in Oklaoma for three
hundred dollars. The Nazi
Party will lose on that
deal.

Let me know how
Lifton's theory can be
knocked down.

Sincerely,
