Dear Harold,

I sent The Sheridan and Turner books unmade separate covers. The former is interesting. The latter - dull, padded, no research, no context, no conclusion. Your Biograph gets a more "too subtle" put down.

"The greatest The Watergate 'correlations', the larger the mystery of what else is involved. The press has not provided the larger context of the biographies of Hunt or the Cubans. The tip of a huge iceberg - - - - -

Salmick has become another Watergate "researcher". Has been on talk shows challenging sabotage re: Hunt crash. Yes, Watergate is a sick vein.

Mae is charming, dedicated, honest but a poor researcher.

Any academic study of Nov. 22 will have little market pull. The sensational, wisest stuff becomes a hot property.

I do need your data,

given "You Marxist teachers,  
Cameel" go!! The context  
is right.

I have full confidence  
that J.C. will blow another  
one.

Larry Agard - a Dallas  
assassin! What do they  
get this stuff?

The new generation will  
"soon be wondering about  
Daryl Wick"!

Take good care  
of yourself. Hope the  
suit is going well.

Sincerely,
