

LOYALIST } COLLEGE OF APPLIED ARTS AND TECHNOLOGY

Dear Harold,

The Hunt - Arab "Limbs"
(and by inference Sirhan)
represents the latest
variant of the Hunt/Big
Oil Definite Assassinations
theory, a concept "The Company"
has tried to detail for
years as per Farewell
America.

The Romero Book is not
available in England as
per Martin Walker. Why?
When did he interview it?
A part time job for "The
Company" no doubt!

The media attention given
Skolnick can only be
attributed to CIA strings.

It says a lot for
the press that Frame-Up
is the only critical
analysis of the subject
ever written!

The Russell Story -
Wanted The Texas Observer

Be interested? Sylvia has
contacts there and it seems
likely they would publish.

On Buckley Rusb mentioned
Russell was not satisfied
but said he was convinced
that no foreign government
was behind Oswald. A
nice touch!

Sincerely,
P
