

Dear Harold,

Hope this letter finds you and your wife well and in good spirits.

I suffered a nervous breakdown but have come back so to speak.

I found Best Evidence absurd but on the other side its rules reveal the deep interest in the subject.

Forzi did an article which showed how the H.S.C.A. just had about his own theory based on Ucciano is not very persuasive.

Bobby, an ugly ugly paranoid with one fixation - Mob Did It!

Thought this cartoon would amuse you.

What have you been doing all this time?

Sincerely,
