

Dear Scott,

9/1/98

If the neighbor who is a blessing, besides being a wonderful human being, is on time, I'll have to lay this aside soon. If I do I'll try to finish it in the morning. We have both ~~de~~ deteriorated much, have much more trouble moving around, and for the first time in about 40 years it is not safe for Wil to cut my hair. That she has done this saved me weeks of time. The neighbor will be here to apply medications that I think have also become a bit dangerous <sup>to add</sup> for him. The Medications are to control the itching which comes from the medications that keep me alive (only one of the problems from them but considering the alternative, up with itching!) and we do that before bedtime to deter the itching at night, when I am not aware of scratching. Fact is that for a couple of years now I go to bed with mittens on! Lined, leather Andean and once beautiful mittens!

As I have from time to time, I thought of you just before we got the mail. I'll return to that.

On the clippings, Ragano was a liar in trouble with the government but his lying seemed to have kept him out of jail. I may be wrong on this, but he did lie.

The King investigation is not any investigation at all. It is to look at two obvious lies that the latest Ray attorney was stupid enough to put in a book and the Kings were dumb enough to accept ~~it~~ blindly. The only inquiry that can now mean anything is a look at the record. Which I've done to the degree possible for me now in a manuscript being retyped. It is titled Whoring with History: How the Gerald Posners Protect the King Assassins. Corrections being made in it now. He, Bill Pepper, had the run of the place and the unsupervised access to my records and the files and he had no interest in the work I'd done and that stacked in courts. I even got a student to continue his supposed searching and she spent much time working for him.

Some of the clippings are not new but are made to appear that way. I printed some of that years ago. But good to have in file. Thanks!

What made me think of you is that I got the second painter after the first one pooped out and did not return. I gave him copies of your letters and told him that is the way I wanted it done. I cannot supervise that now, too feeble, but when I became aware that he was painting without having removed all the old paint he mumbled what I could hardly understand about it not being a good idea. He had been scraping the old paint and I've already paid for all the materials. I guess all I can hope is that he does get the loose old paint and that when he is finished it is smooth.

Neighbor being later let me get most of this done. Many thanks and best wishes for you all,

Harold

8/29/98

Dear Harold,

Enclosed please find enclosures of interest. Could you briefly comment on them if your time permits?

Sorry I've been out of touch so long. Been more than extremely busy. Am working mega overtime at work, doing alot of side painting work and am also doing the roof and other work around my house. All that on top of regular duties and chores.

Hope you are both doing well. How is the state of the health of you both? Saw Posner on a talk show regarding the MLK case. How is your book coming along regarding that? Was also wondering what you've been up to recently (ie) what you are writing and doing.

I have been thinking of trying to purchase exact replicas of the rifles in the JFK and MLK case. Can you give me the exact year and make that I'd be looking for regarding both these guns. I know the basics about them but would like very much for an expert in the field like yourself to tell me exactly what to look for. Much obliged.

May try to come down for a visit this fall if you are taking visitors. Can't promise I'll make it down but I would like to for a vacation.

Also saw the new video regarding the Z film. Thought it was well done and adds clarity to the film.

Do hope you are both doing as well as possible. Think of both of you often.

Your friend,

Scott Wilson

P.S. Now with Ray dead do you think there is any new avenues to be explored or uncovered in the MLK case with this new investigation being launched?
