Dea Scott,

Thanks for your 4/10 and the enclosures, which I've skimmed and will read with care after I recover from what always tires me and puts me behind, a trip to Johns Hopkins hospital in Baltimore. A friend drove me there and the doctor, chief of cardiovascular surgery, was delayed in surgery. His report was OK on my legs but just sitting there for four hours wore me out, too.

I have the Posner prostitution of our history and have about 25,000 words written out it. However, anything you see can be of use in it.

I may reread Marina's testimony when you send me that first volume.

Thanks!

That ~~by~~ Di Persio clipping I'll copy and send a friend who'd asked me about it also in yesterday's mail. He'd heard that Ron Freed wrote that script.

Powers did mean much to JFK.

The new King efforts are interesting but I fear the approach based on the line Pepper has taken will get nowhere because much of that can be knocked down so easily by the FBI. The worst part would be if there were a commission that looked into what he claims. That would be another guaranteed whitewash.

Too many people think they are Sherlock Holmes brought back to life.

The man who is to do the painting has been here once. He is coming days he has no other work. He got the loose paint off and let it lay but another friend who is doing the mowing for me cleaned that up.

Hope all is well with all of you.

Thanks and best,

Scott

Dear Harold,

Enclosed please find Clippings of interest.
I want to wish you both happy birthdays.
How are your wife's legs doing?

Do you know of any book Posner has
done on the MLK case. One of these clippings
pertains to that.

As per our recent phone conversation I
will send you the WC Volume I that I
reprinted on my computer.

Been very busy. One of my best
friends passed away from a heart attack.
He was only 45 and I was at the wake
& funeral.

Will send out more stuff soon
Hope you feel well.

Scott
