

Since November 22, 1963, many people have been involved in seeking the truth. Some have been deceivers and some have been deceived. Some have gained monetary riches and some have paid with their lives and / or reputations. Many Americans believe that we do not know the truth. It is time to end this montage of conspiracy. Image processing technology has uncovered enough hard evidence to trigger the truth.

I am prepared to testify under oath, along with other witnesses who will come forward, to present hard evidence of a conspiracy. I would like the opportunity to present my findings to the Kennedy family, as I did to Marina Oswald Porter. When they see my evidence, I believe they will support me in demanding a new investigation. I am prepared to provide the complete description of the image processing hardware, software and protocol to several credible institutions for a controlled simultaneous verification of my findings. The entire verification process, documentation and all associated data and findings must be made available to the American public.

When these actions are taken, the truth, triggered by today's technology, will be known and justice will prevail.

Dear Mr. Wilson,

A debt of gratitude is owed you by many for your discoveries of the evidence in the photo/ films of the assassination of President Kennedy. I respect your comments on the monetary aspects, believe me, I did not get involved in this to make a profit, in fact it has been costly to me in more ways than one. The American people have the right to know the truth and I want to do what I can, I want the country back that was stolen from us on November 22, 1963, the America that my father assured me would always be there for each generation.

Any published or unpublished papers, articles, books of mine will be freely donated to the Claude Denson Pepper Library at Tallahassee, Fla., the late U.S. Senator was my personal friend, and counsel to John Kennedy from his days in the Congress all the way to the Whitehouse. My Oswald book will be self published as a matter of historical record for future researchers, using fully supported documentation and evidence.

One of my papers is entitled "The Kill Zone and the Method", not only do your finding support my writings, it fully endorses them. To quote you, it was "bone chilling" to me when I read your "Technology Triggers The Truth" to see your analyses fully concur with my research and beliefs in this case. The evidence is also overwhelming that Lee Harvey Oswald was a preselected "patsy" by a group of evil conspirators. Enclosed for you is copy of the Dealey Plaza diagram from the European published book "Farewell America" and it is an English translation copyright 1968, this is pretty close for a group to write this in that time frame, not having alot of the information that has since surfaced.... my belief is that intelligence operators anonymously wrote this book under the alias, "James Hepburn", because there is just too much inside information contained therein.

Please let me know when you publish your analyses and I will send you some things on the case you may find interesting.
