THE KING ASSASSINATION—DISTURBING QUESTIONS STILL REMAIN

The past several months have cast a spotlight on the death of Martin Luther King Jr. Since the "minitrial" of James E. Ray in 1969 this case has been virtually ignored by the public. White liberals and Black organizations registered their skepticism of Ray as the lone assassin, immediately following Ray's forced confession. The skeptics then settled into estrich-like positions regarding the case. Fortunately, investigator Harold Weisberg and a few attorneys, especially James Lesar, kept deggedly on the trail of justice for both Ray and King.

The new knowledge, that J. Edgar Hoover and reactionary FEI agents carried on a multifaceted vendetta against Dr. King, has merged with the long term precision work of Weisberg and Lesar to present an indisputable case that Dr. King was murdered by a conspiracy. Of the major assassinations, only the JFK and King cases can be shown with absolute certainty to be conspiracies. The RFK killing and the attempt on Wallace's life are muddled questions.

Not one substantial thread of evidence links Ray to the killing of

Not one substantial thread of evidence links Ray to the killing of King. Ray can't be connected to the firing of a gun'at king, can't be connected to the bathroom where the State argues the shot came from, can't be connected to a murder weapon, etc. On the other hand, the work of Weisberg and others indicate that several suspicious "characters" were in the vicinity both before and after the crime. Weisberg has discovered at least one rifleman's lair used to kill king. The description of that lair's "hit many description appearance.

scription of that lair's "hit man" doesn't fit Ray's appearance.

The FBI attempts to "neutralize" King leave sinister implications.

Senate Intelligence Committee hearings recently proved that same persons in the Bureau were willing to see King dead, if that was necessary to stop his political effectiveness. Secondly, FBI surveillance of King was so heavy that we must entertain the possibility that the killing was "allowed" to take place by purposeful FBI non-interference.

killing was "allowed" to take place by purposeful FBI non-interference.

The emergence of Ray's frame-up as a national issue (through the demands of the CBS special Report, Ramsey Clark and the Black Caucus for example) has generated enough pressure so that the King death will be reinvestigated in some form, either before or after a retrial of Ray. The public must be discerning enough to force the investigation to be a politically independent one. The only viable vehicle for this new effort is the U.S. Congress—either by a Congressional Committee or a Congressional named Special Prosecutor with his own team of investigators.

In theory, the airways that carry radio and television signals belong to the people. In actual practice, that's hardly ever the case.

This fall, Milwaukee public television WMVT initiated a twice-a-week prime time public access series, "Open Studio-36," in an attempt to give community organizations a chance to utilize the medium as the communications tool that it ought to be.

In November, members of the Milwaukee AIB produced and hosted a program entitled "Who Killed JFK?" as part of Channel 36's public access series. Although the novice effort was a bit rough-hewn for the standards set by the AIB participants, information was disseminated by guest Bob Groden who showed his copy of the Zapruder film of the JFK assassination. While in Milwaukee, Groden also spoke at the University of Wisconsin-Milwaukee and taped his second appearance on Ralph Adam Fine's Channel 6 series, "A Fine Point," along with UW-Stevens Point history professor and assassination authority David Wrone.

The Wisconsin AIB expects to produce a second Channel 36 program on the assassination of Dr. Martin Luther King, Jr., to be aired on THURSDAY, APRIL 1st AT 7 P.M. Additionally, a 30-minute radio program on the King assassination will be produced for April airing on WORT-FM (89.7 mH), Madison, Wisconsin's new listener-sponsored station. The latter will serve both as an informational vehicle and as an organizing tool for AIB activity in the Madison vicinity. The tape of the program will be made available to other communities upon request.

The best book on the King assassination is Harold Weisberg's FRAME-UP: THE MARTIN LUTHER KING/JAMES EARL RAY CASE, (New York: Outerbridge & Dienstfrey, 1971, \$10.00, 530 pgs.). Its postscript is written by James Earl Ray. FRAME-UP contains an appendix of evidence that was released only after Weisberg successfully sued U.S. Attorney General John Mitchell under the Freedom of Information Act. The Wisconsin AIB has this book for sale at \$5,00/ postpaid (see page 7). We highly recommend this for an understanding of the King case, for it provides an excellent background for one to use in absorbing the continuing revelations.

"APPOINTMENT. IN DALLAS",

Appointment In Dallas: The Final Solution to the Assassination of JFK, by Hugh C. McDonald and told to Geoffrey Bocca (New York: Zebra Books, 1975, \$1.95, 223 pgs.)

The back cover of Appointment In Dallas tells us that the author "is the man who travelled over 50,000 miles, through 10 countries, to track down JFK's real assassin."— Incredible!— If true, then we would have no need to read the likes of Anson, Meagher and Weisberg. If not, then we perhaps have here what Weisberg calls a "deliberate fraud."— Whatever, many people probably think that they, in reading McDonald's book, have read the truth of the JFK assassination, for the book has one million copies in circulation and has been reprinted twice. It was Mo. 9 in the NEW YORK TIMES, Dec. 28, 1975, mass market paperback best seller list.
MIDNIGHT magazine summarized the book in three recent installments (Jan. 19, 26 and Feb. 2).

McDonald has a background in Military Intelligence and police work that spans over 10 years. Today, he remains a Major in Military Intelligence in its Retired Reserve. His personal history, he claims allowed him access to a man he dubbed "Saul," and to get from him a complete confession to the assassination. This professional assassin was supposedly hired to kill Kennedy and Oswald.

Oswald it is claimed was to shoot in the direction of the presidential motorcade in order that Kennedy be made more security-conscious. Amazingly, he was to be in full view in the sixth floor window of the Texas School Book Depository because,

(the) Secret Service wanted to be absolutely sure where he was and that he was doing what he had been told. They told him they would recognize him because they had photographs of him. (p. 169)

"Saul" was to kill Kennedy from a second floor window of the County Records Building at the same instant that Oswald fired. Oswald was to remain in full view after shooting the warning shot. "Saul" was to finish off Oswald when the presidential security screen started firing at the conspiracy's "patsy." This part of the plot failed so there were two backup men:

There had to be two key men: the first (the "outside" man) to track and kill Oswald in the seemingly remote eventuality that he escaped entirely undetected, the second (the "inside"man) to eliminate Oswald if he were to be caught alive and taken into custody. The "outside" man is so far unknown. He obviously failed. The "inside" man... (was) Jack Ruby. (pgs. 127-8)

Even if Oswald was a rank fool why would he take this shot, why would he remain in the window?? What about the shot(s) from the front of the motorcade, from the grassy knoll? "Saul" through McDonald says that they didn't exist, discounting then the Zapruder film, eyewitnesses and physical evidence (e.g. C.E. 60).

Why then was this book written? To make a buck? To confuse the public? Was McDonald lead to believe a partial truth was a whole truth?-While the author in the book and on television has said that he wishes to answer to Congressional inquiries, this testimony has yet to have been made. Were it, it would perhaps lie to rest the many questions that one has in reading APPOINTMENT IN DALLAS.

AN OPEN LETTER TO FRIENDS OF THE A.I.B.:

After hours of diligent work, the Wisconsin Assassination Information Bureau is proud to present you with its first official newsletter, the MONITOR. You have received a copy because you share our skepticism of the official solutions to the various assassinations of the past twelve years and have expressed a desire to keep informed on this crucial issue. With your support, we hope to make the MONITOR a monthly means of interpreting and disseminating current revelations pertaining to the subject of political murder in this country.

The W.A.I.B., which seeks to politicize the issue of political murder, has been in existence for a little less than a year. In that year we have done much to keep the issue alive in the Southeastern Wisconsin area. We've participated in the production of five T.V. shows and numerous radio programs. While carrying our petition drive to the State Fair, three neighborhood festivals and the national YSA convention we have collected nearly 5000 signatures on petitions calling for a Congressional investigation into the JFK assassination. Hew chapters are presently being formed on the Marquette University and Milwaukee Area Technical College campuses to add to our existing UW-Milwaukee organization. Thanks to the efforts of Robert Groden and the national A.I.B. we now have an adequate slide and film presentation about the JFK assassination. These materials were used successfully at the Oriental Theatre and the Oklahoma branch of the Milwaukee library.

This local activity has paralled the increased attention given this issue by Congress and the mass media. The last year has seen the introduction of the Gonzalez Resolution (H.R.721) and the Downing Resolution (H.R.455). Between the two resolutions, there are more than eighty Congressmen supporting one or both of these measures, which are presently bogged down in the Rules Committee. It will take a significant increase in public pressure to move this legislation out of committee and onto the floor of the House. That's where you must play a vital part! In the end, it is public opinion that will determine the outcome of our efforts at uncovering the truth.

The problem of political murder has threatened to make democracy a meaningless joke in this country. If we are ever to find the answers to these murders, we must treat them not simply as curiosity items but as a crisis in our basic institutions. This can be done in three steps, 1) by educating ourselves and others on the facts of the cases as well as their political implications, 2) by making a political issue of it in this the Bicenntenial/presidential campaign year and 3) by better organizing ourselves to accomplish the first two steps.

And finally, your contributions, no matter how modest, will help us continue to educate the public and lobby Congress. Please join with us in the growing "TRUTH MOVEMENT! We hope to hear from you soon, this vital work won't get done without your continued interest and participation. - 1977 -

> Yours in the Pursuit of Truth, Jim Raver \$

to witheren new yells rengine of One of the most precious rights of citizens in a democracy, is the right to vote. By casting their ballots each individual expresses opinions about issues which affect all of us. In 1960, voters in the United States elected John F. Kennedy to be the 35th President.. In 1963 he was murdered. In 1968, Robert F. Kennedy was chosen by the voters of California in the Democratic Presidential Primary, giving him additional momentum towards the nomination. That same night he was murdered, Martin Luther King, although not actually a candidate for office was an important symbol of a whole set of beliefs about issues vital to a democratic society. In 1968 he was murdered, In 1972, George Wallace, a candidate for the Democratic presidential nomination, was, wounded and paralyzed, removing him from the race. Since the Eisenhower Administration, we have not had one election unaffected by gunfire. Policies chosen by the people were swept aside for new ideoligies, ones which brought us years of bloody war and a basic mistrust of governmentaand politicians. The murders have been labeled as the work of "lone-nuts" and the cases have been hastily closed. Still there is ample basic evidence which refutes the conclusions, and the uneasy certainty that the truth has not yet been told.

At this time, you are being given a new opportunity to vote. Your aignature on this petition is a vote to return the political system to the hands of the people, for whom it was created 200 years ago. Reopening the investigation into the deaths of these men is neither an intellectual parlor game nor morbid muckraking into the past. Discovery of the truth about the deaths of our nation's leaders is essential to an understanding of the situation in which we find ourselves today. Official deception in governmental pronouncements. cannot be tolerated.

It will take only a few seconds to sign this petition and pass it on. With a 13c stamp return it; to us so that we may officially present it to a member of Congress. Our only hope for change lies in our unity. We must act to make our own choices, or they will continue to be made for us. This Bi-Centennial year should be one of recommitment to the principles under which this nation began, and the freedoms guaranteed to us under the Constitution.

Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people to peaceabley assemble, and to petition the Government for the redress of grievances. First Amendment to the Constitution
