Dear Dave,

I've heard from Jim White. You'll get his files only he wants to put them in shape first.

Someone else, a personal friend who is much younger, had asked for the hina files.

He has 200 - 300 assassination books, others on Watergate, and some related to both.

presume you'd like them even if they duplicate so you can lend them out and replace lost copies.

Please let me know so I can tell him.

Hope you are all having a good holiday. We are not to have a white one. Somehow, when everyone predicted a heavy snow storm on Tuesday, we missed it and it got warmer.

Yesterday and today I was able to do a little outside work, carrying and dragging and cutting up firewood.

Not as much as I'd have liked but I enjoyed it.

Best to you all.
