Oh witnesses

12/8/86

Dear Mrs. Davis,

I'll not be able to pay much attention to your outline for a while because I have to work on an appeals court brief. But you are welcome here any time I'm home, which is most of the time. Generally I'm away only for errands and medical reasons. In early January this means after 2:30-3:00 on the 7th and after lunch on the 8th. I have walking therapy every morning and I'm generally home for it by 10:30. If you will be going east on I70 we are about two miles from the closest cloverleaf.

You may have a problem from the great volume of the materials you are going to tackle. Volume amounts to an effective denial of access unless you know what you are looking for. I suggest that you write the Archives in advance and tell them.

I've never had this specialized interest in witnesses so my subject file may not be rich on them. However, I do have a subject file of some of the official records, I may have a general one on witnesses, and I have name files there and in my general files.

You also may want to speak to the private assassination archive in Washington, 918 F St., NW. Jim Lear there is too busy right now in litigation but I'm sure he'll do what he can. He is in #509 at that address, phone 202/393-1921.

If you come up from Washington take the beltway, I495, to the fork above River Road and take the left fork there. It is marked Frederick and Rockville. It merges into I270, which loses that identification at the first Frederick exit. It then becomes first US 15 N and then is joined by US 40W. But ~~stay~~ ^{stay} on that road and do not leave it until exit 7, marked Hood College and Fort Detrick. This is a half cloverleaf. You go toward Fort Detrick for about a city block. This means you have looped under the road on which you were. In about a city block, on the left is the beginning of Shookstown Rd. Stay on it about 3 miles. You will then begin to ascend the mountain, having been in a valley, and about 3-4 blocks after you start going uphill, the first street after you are climbing, is Old Receiver Road. Go right on it about .3 miles to our mailbox, which is large and has the number 7627 on it. If you should want to stop off on the way to Washington, and unless there is a Redskins game at that time you'll be welcome, and if you are on I70E, take the first exit at Frederick. It feeds you into the eastbound lane of US 40 W E. Get into the left lane and in about a city block there is a crossover. It leads into Bowers Road on which, in about another block, you'll turn left. It deadends in Shookstown road at the very bottom of the mountain. Turn left and thereafter the other instructions ~~apply~~ apply. The lane goes only to our home.

I'll read and perhaps annotate your outline when I can. Meanwhile, hope you all have a fine holiday.

Sincerely,

Harold Weisberg
