

10/16/97

Dear Dave,

Hasty thanks for your 10/13 and enclosure, here today. Lil is now reading it.

It may be that in the end you will be happier with an independent book. Wait and <sup>see</sup> see how it goes.

It is astounding that a reporter like Hersh would go for so much that an intelligent child would question.

Like Kennedy <sup>putting</sup> that kind of agreement on paper when he was the candidate or the President. Or that if any money were involved he would have even had knowledge of it. Or that she was that kind of person, as she was not. Or had any such need, *as she did not*

But with all that is involved, they'll go ahead with this desecration the publisher boasts is to change how we think of JFK. Laudable objective!

I look forward to that indecency.

Thanks and best,

Harold

Dear Harold:

Enclosed is the article from the NYT on JFK's revealing letters and so forth.

While I wait the opening of the bids on the Menominee Forest Project I am going to put together a critical statement on Beschloss's LBJ tapes and attempt to have a Journal of History somewhere publish it. At the same time I shall be looking for a journal to review it and use the review for my critical observations, if I fail at the first.

Failing the winning of the bid on the Menominee Forest Project I shall go right ahead and write up a history of the forest from the cultural perspective I have already got.

*much?* Oh I had to read a Never Again chapter this week end. It is a good book.

Why the mail does not get to you in an appropriate time is beyond me. I send things to Elizabeth and she gets them almost always within two days.

Regards,

DWrone
