

Dear Dave,

2/16/92

The Posners will be here for breakfast and a little more work and then leave. I'll need the day for packing ~~and~~ the accumulated orders. Before getting to catching up on the mail, we got quite a bit done, we like each other and Lil and Trisha really hit it off. They are good and thoughtful people. They'll be coming back. Gerald made quite a few copies ~~and~~ what interested him, particularly from my Lane files and I do not know what else. Later this morning I'll try to indicate to him better than I apparently have my belief that in planning such things as interviewing people like Jean Hill he will be wasting time, effort and money and can well trivialize what he could be doing and writing. My rather gentle hints of this seem to have had little influence on his thinking but he is beginning to see what the Lane material is. Of the things that seem to have impressed him he commented on what he considered to be the impressive spot analysis I did of Alvarez' work and a few other things like that.

We went to Hana's for dinner the first night and they both had and became addicted to the Korean dish bi bim bob, something like but quite different from Chinese fried rice. We took enough home for dinner the next day because of the prediction of snow, which did keep me in the next day, and the next time we went there they both got it again, each of them twice ~~eating~~ the entire serving, which makes two meals for me. When we went back last night they each tried and liked other dishes I recommended. So, they enjoyed the food, too. and Everett and Nicole. And the delicacies we did not order that Nicole prepared and Everett served. This also impressed them. Except for breakfast they had only Korean food. Trish took a copy of the menu, marked it up so they can try to get that in New York. For people no larger than they are they ate rather well.

Gerry's TV appearance seems to have gone well and there is talk of a repeat.

I've not spoken to Jerry for several days. His mother-in-law is home from the hospital. She seems to be doing about as well after her stroke as can be expected from the last I heard. This will tie him and Barb down more.

I've heard nothing more about the documents released by the Dallas police. Henry Wade has not responded. I'll write others if Gardner has not gotten them when I ask him in a couple of days. Do you want them? Or would you rather I go over them and send you copies of what I think is interesting?

After several years of wondering what happened to him I heard from Bruce McKinney yesterday. I'll send you his letter when I respond to it.

Although I suppose I should not be I'm surprised at how much I've forgotten of my work of the past that interested Gerald.

I'm hopeful that he will deposit his Menegak and related notes, documents, interviews and other materials at Hood. He had many interviews with the children of prominent Nazis for his book "Hitler's Children"...I'm still interested in how your TV appearance on Stone's movie went. Best to all,

*Harold*
