

Dear Dave,

1/24/94

The mail was later today and I was answering it, doing the recollections prompted by the story about where a great-aunt lived (he/daughter and son-in-law got me the job from which I was able to pay my initial college costs and I lived with them), when I got from Gallen the edited and much shorter Case Opened. I'll get on that in the a.m. I rished through your review only, think it is good, made a few suggestions, include one place to cut a bit, and here it is. I'll read the additional comments until suppertime, which is close, and may perhaps add something before bed.

I think what you have done is good. Very good. I noted a few places where the wording might be argued over. I think it is understated, much.

Forgot I've packages to make.

5, line one, insert Oswald's name

3 He gave the diary to Ainsworth and Ainsworth sold it to Life. Wasn't Ainsworth one of P's interviewees?

Frazier?

5 up- package. The important part is that Oswald had the thing he was carrying in the palm of his hand and under his armpit, not nearly the space a rifle required.

More whe I can,

*Hand*
