

11/24/76

Dear Dave,

Thanks for your kindness of 11/20, here today.

After you have had time for more reaction I'll write about the kinds of letters the Hurok agency can use in offering Jim and me for appearances.

Your reference to the slides reminds me of some I need duplicates of to use an offer of some new method of analysis in which I do not really have much faith.

These are the third Altgens picture and the sequence on the short, Oswald in his and "ovelady in his.

If your people can forward a set I'll send them to the friend who made the offer and is pressing me to go along with it.

Maybe I would be shocked, your word, at how clearly some of your students perceived in Howard what principled youth can do. I do not think so because all those I met impressed me as good human beings. They may not have Howard's exceptional endowment but I think they are good and can learn or be inspired by precept.

Your two kids are a delight. If they missed me I'm pleased because I like them much. They are beautiful in every way and they reflect the advantages of having parents who care and who take time for them.

Our best,

November 20, 1976

Dear Harold:

The symposium was an outstanding success for the University in several ways--students, faculty, and administration. I have heard nothing but good reports from them all week and I know you must be pleased with what transpired.

This next week a bundle of clippings, photos, etc., will be put in order and mailed off to you and to Jim and Howard. We will give you the photos you wanted in many copies.

The television tapes are in order and a few touches have to be put on their packaging yet and they are ready to rent or lend. Already we have had requests for them from a couple of additional high school teachers. I will be spending some time putting the slides in order and arranging for their use by interested parties.

Our Chancellor spent much of the week in Madison at a major autumn meeting of the Board of Regents of the University and I have yet to meet with him over the question of documents etc as per our discussion. This will come this week apparently.

If John Spivak is still around I will find him and drop him a line or two about his material. This type of stuff especially will be of interest to our communications minded Chancellor and will suggest to him the potential available to him and the University to build a first class collection and make it available on ~~the~~ a national scale. I will follow up any additional leads you can suggest and only wish I had the time and you the time that I could tape your experiences on Harlan.

The kids looked around for you on Monday morning -- You are a Pied Piper.

Please give my regards to Lil and I trust she will not notice anything messed up in your diet or such that occurred here.

By the way everyone like ~~the~~ Jim's King lecture and felt life had somehow cheated them when they saw ~~what~~ what Howard Roffman was like. Yet, I said to the kids here that this ought to show you what principled youth can do. Several saw that so clearly you would be shocked.

Sincerely

*Dave*
