

Dear Dave,

11/24/78

While looking for some slides today I came across more tapes for you. However, you have not responded to my asking you about replacing them. I need the replacements for the taping of HSCA hearings.

I'll be away all next week. I can't ask you to drop everything and tape those days.

To now I have all the King hearings beginning in November. I'll resume full taping when I return, which will mean the hearings of the week of 12/4.

If I can find time I'll package up and send the tapes I've put aside before I leave. There are two that are chromium dioxide tapes. I'd appreciate your dubbing them and returning them.

There is one that is a tape of a Segal show Jimmy Ray has wanted for a while. Please give me a dub of that with no identification on it but on a separate slip of paper please write what is in the cassette. I'll forward it.

I think that if there is a problem for you that from the way he spoke when Burdette Egon called he'll take care of it. I've had some expenses since then that I did not write him about because the cost of handling them would have exceeded the expenditure. I got some legal-sized file folders so that when you get the legal files the folders henceforth will not be reused ones. I have not had time to see how many letter-sized ones I have, as I was to have done. He said he'd give me a purchase order on them but no point in asking them to put the money out until my supply is low.

I'd just bought 15,000 sheets of paper when he phoned!

You will remember the "Long Tickler" King matter. Well, I got it today. More or less, as will become clear.

Also at least 5,000 N.O. JFK pages without enclosed letter or inventory.

I'll be speaking Monday-Wednesday of next week and will get to DO for the John hearing Thursday morning from Baltimore.

I'm keeping a Lane/Peoples' Temple file, with Memphis clips.
