

March 2, 1978

Harold Weisberg
RR 12
Frederick Maryland

Dear Harold:

I read your material and thank you for the many items.

Today I got a phone call from Congressman Obey's home representative in Wausau, Jerry Madison, regarding my request for a copy of the HSAC Report. Obey's office has still not been able to get me a copy he said. "Pat" in Obey's office has reported that the report is not available to Congressmen and Congresswomen in the usual manner but must be purchased. This she said will cost about \$200 or more as the report is many tens of thousands of pages!!! and the Congressmen and Women are to buy their copies out of their office budget. They will work to get a copy, but it is a tough job. (This is a dandy.)

Interesting? A secret report on the JFK assassination?

I requested copies of what might be a summary statement, or synthesis. (How in the hell does one get copies of this?) If I have a little trouble getting my hands on it, what is the general public to do? I am sure a copy will be forthcoming of the summary.

I am attempting to rally the boys on the news reports. They have relaxed a bit. It seems college kids go in cycles and George and Gary will come around to me next week and I will discuss the FBI releases and the summary of the vital parts for you. George is also working with Doug McMillan of the Black Student Coalition to bring out Les--the BSC are truly anxious to do so-- but it is the question once again of money. They have scared up some, and are now working at other sources. They really act like pros and make me feel a little puny as they discuss strategy, operational tactics, appeals, etc.

The week after March 17, 19-26, is the best time for a trip to Frederick and I am attempting now to arrange for two or three days within that week.

Must run now to make the mail

Adios
