

Dave- thanks for your 23 rd. I'll give the info on the wholesaler to Ldl.
The Vegas reform was short-lived in Jim. He is back to his old (non)sleeping habits.
Floyd was delighted to know that he'd been of some help.

We were in court again yesterday, I think successfully, on CA 75-1996. The judge told them the law is the law, whether or not we like it, so come across. They swore on all the holies short of Nixon that this is their intent. So she gave them to 5/5, for which I've already started preparing our friend with a direct-confrontation affidavit on (non)compliance. (They swear they don't even have a picture of the scene of the crime. The judge's subtleties on this were exquisite. Jim wisely refrained from saying almost anything once he saw how it was going. Meanwhile, they have a very tough affidavit to answer. Jim did his usual great work in reorganizing, condensing and rewriting it.

We had a conference with the FBI 3/23. For \$141 in claimed search fees (I paid) they came up with only 18 pages! But our Jim waved a couple around with some effect. Black ones, that is! So, she'd told them to justify all masking. (One is of KKK, another is all public, still another a Ray alias - none rational.

We are making real but very slow progress and have no choice - can't rush and must force on compliance not time.

We both believe that the announced re-investigations that have not been and the leaked forecast of a new "commission" approach are forced by what we are doing. Floyd and I discussed what to do in anticipation yesterday and today and today he's started with some black Amer. Univ. students. Best and again thanks, EW 3/27/76
