

HW

**Elizabeth M. Wrone, M.D.**

**March, 1999**

**Office 1:**  
Stanford Center for Research in  
Disease Prevention  
1000 Welch Road  
Palo Alto, CA 94304-1825

**Office 2:**  
Division of Nephrology, S201  
Stanford University  
Medical Center  
Stanford, CA 94305-5114

**Home:**  
111 North Rengstorff Ave. #72  
Mountain View, CA 94043  
(650) 965-1278

**Email:** ewrone@Stanford.edu  
**Phone:** (650) 723-6528

**Page:** (415) 607-6934  
**Fax:** (650) 725-6906

**Specialty:** Nephrology, Board Certified, 2/99  
Internal Medicine, Board Certified, 11/96

**License:** California G082134

**Education and Training**

M.S., Epidemiology, Stanford University. Anticipated 7/99.

Fellowship, Nephrology, Stanford University School of Medicine, Stanford, CA. 7/96-present.

Residency, Internal Medicine, Yale University, New Haven, CT. Traditional Program, 7/93-6/96.

M.D., Mount Sinai School of Medicine, New York, NY, 5/93.

A.B., Brown University, Providence, RI, 5/89. Concentration in Biology.  
Magna cum Laude, Honors in Biology, Sigma Xi.

**Research**

11/96-present. Stanford Center for Research in Disease Prevention. Dr. Stephen Fortmann. A randomized, controlled clinical trial using folic acid to lower homocysteine levels in dialysis patients with change in homocysteine, death, atherosclerotic events, and vascular access failure as endpoints.

5/92-6/92. Aberdeen Area Service Unit of the Indian Health Service. Dr. Thomas Welty. Rapid City, SD. Results and Costs of Cervical and Breast Cancer Screening Among Sioux Women Aged 45 to 74 years.

10/89-6/92. Mount Sinai School of Medicine. Dr. Edwin D. Kilbourne. Isolation of an amantadine-resistant mutant of Influenza A virus vaccine using antigenic reassortment. Includes NIH Summer Fellowship 5/90-7/90.

8/88-5/89. Undergraduate honors project. Dr. Johanna Schmitt. Brown University. An Investigation of Heritability and Variation in the Chemical Defenses of *P. lanceolata*.

6/86-8/86. Marshfield Medical Research Foundation. Dr. James Marx. Marshfield, WI. Developed a radio-immuno assay for the quantification of house dust mite antigen in household samples from patients with severe house dust allergies.

Elizabeth Wrone, M.D.

March, 1999
