

Dear Paul, This is very helpful and quite timely. Jim was to have figure the state of the account out and let me know over the weekend but he hadn't the time. He was sure it was almost empty. So it is very helpful. Our sincere thanks...No relieve in the weather but a warming trend is forecast to begin tomorrow. I'm so used to it now I go out with a sweater when it is below freezing....CIA critics, ref in ltr to Jim. They were doing more, as in time I'll prove. More than two years ago Warner personally lied to us about this. I'll get what they have released and sue for the rest. Let me know what parts you are interested in and when I read it I'll make copies for you. Unless you want it all....The LATimes article does add a little to what I knew about the leaking, so it is helpful...Would + love to be able to show some of what I now have to Wexler or others like him! Like I've never had before. Our thanks and our best, HW 2/8/77

Best,

They have to have some reason for not doing this when my request is six years old.
would be good to check to see that they have sent me all.

Dear Harold;

Hope the weather is easing up for you. From what we have seen on T?V. out here it looks terrible.

Just heard interesting radio news on the CIA putting out stories to counteract the Warren Commission critics conspiracy theories. This in 1967. I would like to know what you have on this.

Am enclosing a LA Times article on the leaking of the FBI investigation into themselves.

Also a check enclosed for you and Jim to use in the xeroxing or whatever you need it for.

Please give my regards to Lil and Jim.

Best,
