

Dear Paul,

7/15

Thanks for your 7/12 with enclosures. I'll ask Jim if he wants a print, thanks.

He had to phone me today about the interrogatories he's putting into final shape. I had asked him to mail you a xerox of the spectro decision and of the King transcript, last one. He sent me extra. If you do not receive, please let me know. I think you'll find it as interesting as the carbons may indicate.

I wonder how much of this is comprehensible to those not intimately familiar with all the details.

The Ray thing is crazy. We'll have to see how it works out. He is building a mental record for them to use. I've been working on Jerry the only possible way on this and related questions. Their skulls are concrete and the contents a century out of date.

No word from Schweiker. Or Hart.

It takes much time to do these things. I take the time. Right now I'm a bit not weary but I guess emotionally tired from having made an analysis of the 1996 transcript for Jim, so I switch from something not that dreary.

Gordon will not air me. Again, that is. He'll never remember the one time, back in 1967 or 1968. I warned him during a break not to pull the kind of stuff he had been or I'd respond in kind because he'd be leaving me no choice. He didn't heed me. Or as I recall, his wife, who I think is probably his brains. So I clobbered him on his own show. Gordon tried to get him to have me on the stuff he did when Gregory started up. He would not. His show is not aired around here. That it originated in suburban Detroit. But thanks.

I think I've carboned you on the Bessie letters. I'll carbon him on that to Dmytryk. I'll want to get my old files back from him.

We are okay. I'll returned from a visit with my mother last night.

As you will have gathered, the legal stuff is going fantastically well.

Have to try to think in advance of their next tactic. One has been forming in my mind. I'll propose it to Jim soon. When I start the adrenalin will flow again.

The FBI is running about 9 months behind on their FOIA/PA responses. They are that overloaded but they do still stall and get wasteful to build statistics.

Best,

Paul Wurtzel

Dear Harold;

Received your letter with the carbons and found them extremely interesting as your letters are. Your letter to Schweiker really layed it on the line. I imagine you probably will not hear from him if he runs true to form of politicians, just ignore it and it will go away. I got an answer to my request to the FBI for my file under to FOIA. They said they are just processing requests from Oct. 1975 and would have to be patient. Last week on ABC radio Michael Jackson had Rainer Mahlmann, founder of the FREEDOM OF INFORMATION SERVICE, 2180 Sand Hill Rd. Menlo Park, Cal.94025, I went thru them to get my file. I phoned the Jackson show and told him about my trip back to meet you and my going to court with you and how the Govt. has been stonewalling you and Jim. He did say to keep in touch with him and let him know what happens. I think that I will also write to Lou Gordon and tell him. Here is the address the Directors Guild gave me on Dymytrk. 25820 Piuma Rd., Calabasas, Cal. 91302. Your letter to Bessie is very interesting. Has he replied to you? Also, Ray seems to be in the last throes. Do you think they will be treating him as a mental case? Am enclosing a xerox of a page from ~~Ø~~ Edmunds Scientific catalogue. Psycho Acoustics. Also am enclosing a photo of you and Jim that I forgot I had. If you want another copy I will have some made.

I hope you are feeling well and the same for Lil. I think you are doing a terrific job and must be writing 20 hours a day. I don't know how the hell you do it. Again my best to all and hope to have something encouraging to report soon.

Best,
