March 12, 1978

Dear Harold;

Sorry I missed you the other day when I phones but it was nice to talk to Lil. She said your arms were improving from hacking away at the ice on your driveway. We're still having some heavy rain that is raising hell whit certain hiways and freeways. I discovered water leaking into my cloths closet and when I went up on the roof it looked like a sieve, so I have been up there spreading gunk all over the holes. I had just had the flat part of the roof redone but the roofer never said a thing about the peaked side of the house.

Congratulations on finally getting a decision from Judge Green. It's been two years since I was in court with you on that case. If you could only get the spectrographic analysis and NAA that would be something. In the Penn Jones there is mention of you and Geo. Lardner.

This is far out but could there be any connection with the Larry Flynt shooting and his offer for info on JFK?

In reading the Haldeman condensation in Newsweek he states that his pet project was to get the files on the JFK murder from the various agencys, but that he was sidetracked by Watergate. If true it would have been interesting.

It is hard to believe that it has been two years since I was back there.

This year seems to be in your favor as far as the court decisions and lets hope in it is even better for your health and finances.

My best to Lil and Jim.

Dear Paul, Gled you had no more than a wet closet from your torrents. After the first of our dozen snows, last yesterday, for the first time we found water coming into the basement. No damage. I got the lane totally cleared just in time for this snow. But it won't last this time of the year. ...Did not see condensation of Haldeman and did not know he had JFK ass. interest. Probably for nasty purposes... We have the decision in the Green action but you can bet that the DJ will appeal it. They have even appealed the victory under which they gave me those 60,000 pages. It has been my suspicion for some time that they will do almost anything to deter my writing. ...It is to continue to try to break the records out I have little choice. ...We keep filing more suits to get more records but it takes more time for both Jim and me. We've filed several new ones, including for the JFK files of the New Orleans and Dallas field offices. ...If there is any attention to the Epstein(k) book please send me copies. I have the Readers Digest and the New York Mag. and I will have the book. But his statements can be helpful, esp. in court. ...There is no chance that Flynt was shot over his offer of reward or as his hangers on led by lane claim over that Freep ripoff edition. But any news attention can have some value. I suppose the Freep has pulled the stops. I don't see it. It doesn't get here. ...I started to read Sharrett in LCI but not worth the time. I've had correspondence with him. Unless you agree with him you are CIA. His intellectual ability is anti-intellect. He is a drunk teacher. There are now many like him and they do no good. Best, HW 2/17/78
