

Oswald in New Orleans - Omissions in N.O.'s 11/28/63
summary of LHO's whereabouts from 4/23 through 9/24/63

HW 5/23/83

Two of the apparently glaring omissions are Oswald's picketing of the carrier Wasp and the WDSU film of his 8/16 picketing of the old ITM.

There is also a significant error in placing LHO's visit to Bringuier's store at 8/5. It was actually in June. I have the receipt, dated, that Bringuier gave Philip Geraci for selling his bonds and that is the day Geraci saw LHO at that store. (Perhaps July. Didn't check.)

Page 4 places LHO in N.O. on 9/24 by Eric Rogers' report that he saw LHO going to the bus with 2 suitcases on the day after Marina left and by his contact with the unemployment office, where he signed for benefits.

Record is 89-69-351.

FBI Carlos Bringuier disclosures in C.A. 82-2130:

There is a gap from 12/5/63 to 3/3/67, except for 3 slip sheets referring to other disclosures. I believe they alone cannot account for other existing Bringuier records, at least those related to the WC, unless not in the 89-69 file, from which all records to this point are.

First record in NO LHO file is 100-16601-10. Note on this record confirms my card listing of N.O. Bringuier file, 16739, from which no records disclosed in this case or to the best of my recollection, my C.A. 78-0420.

Except for copies of a few clippings, none of the 100-16601 records is from that N.O. file. Those disclosed, not by any means all of them, are from FBIHQ 105-82555. This eliminates the N.O. notations, which can be of value to researchers.

No evidence envelopes included in this release.

Other N.O. Bringuier records were disclosed to me in the main files supposedly included in this release. These include reports and photographs that were disclosed but are not in this release.
