Dear Sir,

I am a graduate student in history in New York City. Like yourself, I am greatly interested in the events before, during, and after the assassination of President Kennedy. As a matter of fact, I intend to use this subject as the basis for my master's thesis.

I too believe that there is more to the assassination than the Warren Commission has reported.

I have read 2 of your books (White Wash - the report on the Warren Report & Oswald in New Orleans) and have found them fascinating. I have written to the publisher (Dell) trying to obtain your other books, but I was told they were out of print. Could you help me get

them

Thank You

Very truly yours,

Stephen Kalinsky
