

10/14/66

Dear Mr. Roberts,

You never asked for it, but the Library of Congress catalogue number on WETTERMAN is 66-7090.

First publication date is August 18, 1966, in limited edition. The present form first appeared May 2, 1966, was reprinted July 25 and on a date in August I do not recall but can get from the printer if you want it, and on October 10.

The first three printings were of 5,000, but the actual run on the third was about 6,000. I have not been given the exact number. The run on the current printing is not completed. It is to be about 7,500.

Enclosed is a copy of a story from the San Francisco Examiner of September 11 that I did not include in the earlier mailing. There are several things in it I think might interest you.

If you want anything else, please let me know.

Sincerely,

Harold Stebbins
