LEE HARVEY OSWALD
IS - R - CSBA

ReLSlet 1/9/70.

Bufiles contain no information identifiable with
Marion Harrison Lafferty and no information identifiable
with Bobby Joe Sorrell.

Louisville immediately prepare LHM reporting
results of interview with Lafferty. Bureau notes that
on page one of FD-302, paragraph four, the first sentence
is actually two sentences. Correct this when preparing
LHM.

Indianapolis review files on Lafferty, also on
the name Sorrell, and advise Dallas and Bureau.

Dallas review files on Oswald and on the assassina-
tion for any information that Oswald was in Muncie, Indiana,
in the late Summer of 1963, or at any time.

In view of the observations of Louisville that it
appears that Lafferty could possibly be imagining or exaggerating
his information, the Bureau desires no investigation of the
allegation that Oswald was in Muncie, Indiana, in 1963, unless
Dallas finds information tending to substantiate the allegations
made by Lafferty. Note that Lafferty has waited more than
six years before making his allegation; also that he stated
that he felt that the third white male he had seen in the house
in Muncie "might have been Oswald." The Bureau notes that
Lafferty indicated he has forgotten much of the detail pertinent
to his allegation.

RE: LEE HARVEY OSWALD
105-82555

NOTE:

Our investigation revealed that Oswald was living in New Orleans in the late Summer of 1963, having moved to New Orleans in April, 1963. In late September, he left New Orleans and visited in Mexico City, and then moved to the Dallas area. There is no information that he was in Muncie, Indiana, during this period. The allegations by Lafferty do not warrant any active investigation unless there is some corroboration for the story concerning Muncie, Indiana.
