

Charcoal sketch by Grace Layton Sandness, Valley City, North Dakota. Left without the use of her arms and hands by polio, she learned to sketch with her mouth.

Rome N. Dak.

Dear Harold & Mrs.:

Greetings from the mid west. I have had this in the now past file since a week before Christmas but so it goes I've been very busy for the last year and in school full time all through summer & all.

I finish now in the end of Feb.  
I then plan a visiting trip to the  
East Coast to visit many of my  
friends. Hope to get to D.C. &  
out to see you then sometime in  
March unless I stay in school  
spring session also.

Decided not to write & send  
this now even though late.

Also including the pictures I  
thought you might enjoy them very  
much.

How & what are you & your wife  
doing. Do you know of any Dept.  
in Aid now Hering for overseas?  
What is Herman doing? Does he  
still have the Rhin restaurant?  
What is his address?
