

Rae,

3/16/79

This is to keep me from forgetting by the time you have completed filing and identifying the bulkys. I will let this wait until you have completed that.

In today's mail I received the enclosed copies of FBI documents from a friend, Paul Hoch. I would like you to please check them against mine to determine if

I have them from the FBI

The copies are identical

If I do not have them how the worksheets explain their absence, if there are worksheets

You will find that some of the bulkys not accounted for in the 100-10461 file do exist and are described on the worksheets provided to Hoch. He also added explanations. The typing is hist.

I believe that comparing his worksheets with the list you may will disclose that all were not accounted for to him, either, that we know of those not on his worksheets.

I also believe that the missing earlier serials of the Fair Play for Cuban Committee are listed on Hoch's but not mentioned on mine.

Where they have O/S the FBI means outside of the scope of the request as they interpret the request. (Hoch's request was for a period beginning 4/1/63, alas, which does not let the record show there was no FPCC activity in New Orleans at all. Oswald created the only such activity I was able to discover and I had good sources.

Which raises questions about what Oswald was doing, not what he appeared to be doing.

Hoch has some Marine records I do not recall. This does not mean that I do not have them. There may be some I saw I'd want for the subject file and did not read. I have a box of these now several months old. However, if we have that file checking will be simple and is worth the time.

HW
