Dear Harold -

Thanks for your letter. I pray that you and Lillian have a pleasant Holiday season - I'm rushing to meet my deadlines, as my book is partly in production already. Am finishing the final draft - I was asked to prepare a new chapter on Jim Garrison, the Clay Shaw trial, and Oliver Stone, Can you help me with that? I've been very sick the past 3 yrs and only Friday in the E.R. at Union Memorial after skull X-rays was it found that I had a severe sinus infection, broken bone - spread through my whole body. I don't know how I went on working, Hopkins never picked up on the infection.

Do you think Lane fabricated things? What? He makes my skin crawl. They all do!

The pages on Groden I wrote.
We'll have new books Feb 25, for an April Publication. They want 3 of my books. Maybe more.

God bless
Harry
