Fa Series
I suggested

1) Kennedy - Oswald - Kennedy's flight
on features in great & fuzzy
magnification but ignored
shot entirely

Bob Hunt 9/25/78 Tape 2 side 2, first
with news This side, Skip Hughes film
goes to 5 seconds before first shot and
shows nobody on window
Dubbed shows no human until couple of
seconds of last shot"
At about 4:55 identified human in window #5

PM 9/25 - somebody died more likely immediately after
fatal shot
Compare with Baker - Truly - no danger of
getting out of Hq. Delay eliminate possibility
it was Oswald.
