

DW-Here is the NA! index. I've ^asked Bill to make and send copies to Gerry and Dennis. I've looked at only the pictures in NA! and they came out well. I'm working because if there were something to be done with NA! it is now impossible unless and until it is reprinted. But if anyone sees an error I'd like to know in the event of reprinting. What I am saying is that without the need I'll not read it now.
