

Dear Jim, would you please, as soon as you see Ehlke, ask him if the LW maintains a file of official copies of Nixon's public statements, speeches, broadcasts, etc/

If they do I would appreciate knowing how long it takes to get xeroxes, should one want them, and the cost per sheet.

I do not have in mind full texts. I do have in mind an occasional page here and there.

Include press conference transcripts.

I presume that if there is such a collection, it is all at one point. If there is, it would be good to know where, what regulations there are, etc., on the chance of having to make a few copies fast.

I'll explain when we are together.

Nothing new here today, anyway. HW 5/21/74
