Dear Mr. Young,

The list of my books is enclosed.

In addition, Carroll & "raf" are close to keeping it secret but they published my Case Open and NEVER AGAIN!

NEVER AGAIN! begins, based on official documents I have, stating that the crime itself was never investigated and was never intended to be officially investigated. There is, therefore, <sup>no</sup> the official evidence, which proves Oswald was not the assassin, ~~any~~ indication of who was or who was behind it.

You say "Maybe it was something about Vietnam." I think it was and was more, that it was to end all of JFK's policies that some of power and influence were opposed to.

Hunt is not relevant to the assassination in any way. Last I heard he had been out of jail for years and had moved to Florida.

Sturgis did die. The papers reported it.

Thanks and best wishes,

  
Harold Weisberg

Dear Mr Weisburg,

11, 26, 96

Do please send me price list of your books, and any other materials you have for sale. Thank you very much for your sticking to the books, all these years.

Someday I would like to know why JFK was shot. Some say this, some say that.

Maybe it was something about Vietnam. Do you happen to know anything about status of E. Howard Hunt? Is he still in jail or free? I heard one of his partners F. Sturgis has died, the mouse slips the traps. Reading your book "Reflections from Whitewash".

I believe lots of people would like to see your efforts rewarded, take heart.

Many Thanks

Charles Young
