Harat I have to may that these 1960 platures 40 melce Younghtood Jook mere 2ike that Hexico aiceboh and that Individual teatures do boar a close mesomblanoe. However, the age in quite different and then there is the oxightn of the Mexieo alcetrohe The ariegnal is difforent. I've porapared the three dsfferwat vezudons I have, Jou thua have to mak yourself why it was necesesayy to propaxe an entirioly different alcetoh in hexico or what its purposes could have been. (The wonsen, by the way, waso baars a atreljeing segomblanos to Clay Sham. Vamna malce mosothing of thatrime is ahe?)

We'11 tind theae pix of values thoes different vines could also be of value if copging them isn't too much trouble. Wle ave Par from the end on this. Perhaps the oourt recosed holds leads?

I have no argarant uith theoxdsolus that thozs were falne leads to Youngblood. In Hearphlis and in teacico. Why Hexico I have no idea.

Hy ruluotanoe to part with thase pix is not because I jut a 14 terary value on thom. It is foc proserving them and secrecy about them for oourt nee and beoause I've been eypped out pf the not Inoonsiderable cost to mal of entting thems I would Like to reocver that. I $\cos ^{\prime}$ t if I I lot any copdea out of ny poaseandom. tegar only has seen thom and he lmous holl to repiano thes.
