

**6 years ago
Robin Moore
thrilled the
country with
a book about
a group of
courageous
Americans
called the
Green Berets.**

**Now, with June Collins, he
has written a shocking
novel about an
entirely different
kind of American
in Vietnam.**

THE KHAKI MAFIA is about a secret syndicate of American officers, enlisted men, and civilians who manipulate the gigantic Army club system for their own profit. A key figure in the book is modeled on June Collins, the co-author. She and Robin Moore have written an explosive novel set in a treacherous world of grafters, party girls, drug-hungry American deserters working as paid assassins, and military parasites. It reveals how powerful these men really are, how they demand enormous kickbacks and sexual favors in exchange for their business, and how ruthlessly they deal with anyone who dares to cross them.

THE KHAKI MAFIA is a brass-busting book that is doubly shocking, because it is all based on fact, as were Robin Moore's *The Green Berets* and *The French Connection*.
