Dear Mark,

You are right about Lattimer (11/3) and not him alone .

I have the second JAMA article plus. If you would like a copy I'll be glad to ~~am~~ make and send it. Editorial and letters, too in it.

You say you plan more research on ~~the~~ Prouty, Lane and Marchetti and their connections with anti-Semitic organizations. Don't overlook the national office of the ~~Anti-~~Defamation League. They should be loaded on Willis Garto. If I still have it years ago he published what it was hoped would be the American Mein Kampf.

"Imoerium" by Francis Parker Yockey. Garto then in Calif., Where Yockey was in jail. Good luck when the test results are announced!

What do you mean by a disturbing letter from Canada on what you wrote about Prouty?

Who is a fine person, by the way. I'd and I like him.

What do you mean by spending "quality time" with Marina, who does not know anything at all about the assassination unless she has picked something up from the nuts.

The important thing about you being at that nuthatch is that you enjoyed it and had a chance to meet some people some of whom are very nice.

But I doubt that there was anything both factual and new.

Best wishes,

Dear Mr. Weisberg:

I am in receipt of your letter of October 12, 1992. Last week I attended the Dallas Conference and found it to be very rewarding. I did not pay much attention to a lot of the substance but rather I attempted to network with other researchers such as Mary Ferrell. Mary is an absolute delight and she introduced me to Marina Oswald. I was able to spend some quality time with Marina as just the two of us were talking.

Mary also introduced me to Dick Russell and I think our concerns are somewhat alleviated. I found him to be very objective, concerned about the truth and honest. He knew about the information within the material I had discovered but not the material itself. His book should be out within two weeks and I will read it for myself and then come to a final determination.

In any event I am planning to put on a symposium on November 22 and Dick has agreed to participate, along with Walt Brown, George Michael Evica and possibly even John Lattimer. I know you probably disagree wholeheartedly with anything Lattimer says but the one thing that was really missing from the Dallas Conference was an opposing opinion. I think it is only fair to include the opposite point of view and let the audience decide which they wish to believe.

I received a very nice letter from Cyril Wecht yesterday expressing his praise for my Prouty letter. Basically, everyone had positive remarks about it but I did receive one disturbing letter from someone in Canada. I plan to do further research on Prouty, Lane and Marchetti and their connections to anti-semitic organizations.

I have not seen anything on the second JAMA article but if I do I will certainly send it to you. I am still waiting on the DOJ to write me back on my FOIA appeal and explain some of their comments. After I receive their response I will look into filing suit. The bar results from New York are due to be released any day now. Connecticut releases their scores this Friday. Thus, my next letter to you will include the results.

I look forward to hearing from you soon. Best of health to you both. With best wishes, I am,

*Mark*
