A home-video documentary about the assassination of President John F. Kennedy, including famous footage of the murder, will go on sale next month nationwide.

The 45-minute video, produced by MPI Home Video, incorporates the 26-second home movie the late Abraham Zapruder made as Kennedy's motorcade moved through Dallas Nov. 22, 1963.

Photographs of the 500 individual frames of the Zapruder film were made by McCrone Associates, a scientific consulting and research firm that analyzed the Shroud of Turin.

The documentary, called "Image of an Assassination: A New Look at the Zapruder Film," includes interviews with Zapruder's associates, pictures of the murder scene and a historical narrative.

It will retail for \$19.98 for a VHS video cassette and \$24.98 for a digital video disc.

The film was made available for video by Zapruder's family, which is battling the U.S. Justice Department over how much the original film is worth. The Justice Department has reportedly offered the family \$750,000 for the original film.
