Very interesting that the entire above is withheld. Karen Carlin (Little Lynn) made the call to Ruby apt. 11/24 a.m. Carlin's account of his travels, in his Warren testimony is very vague about his travels 11/20-21 Houston, New Orleans and Dallas. Bunker, Carlin's boss at that time is largely a blank in the 26 volumes.

Somebody mailed a letter at Fort Worth, signed themselves as L.C. or involved someone with those initials, subject Johnson & Connally. Lynn Carlin is a better prospect for the writer, Crawford if L.C. is being accused of something. The letter was in Michigan at the time. (12/3/63. The Bunkers seem to have been brought into the matter rather thoroughly. Also Pat Kirkwood and the "Cellar", hangout for S/S agents.

Too bad we sicks aren't allowed to read some of it.
