The Rifle

Present expert evidence to the Commission that rifle can be fired accurately 3 times in 5 seconds. SEE Agent Courtley Cunningham has fired this rifle.

Governor Connally

He should be interviewed by persons. The interview should be conducted by one of us who has some knowledge of the problems; Ball, Bolin, Spector. When interviewed he should be shown the moving pictures.

The autopsy surgeons present an interesting speculation; that the bullet found on Governor Connally's stretcher penetrated both Kennedy's and Connally's bodies.

We suggest the interview take place in Dallas but the Commission will probably wish to hear Governor Connally in Washington.

The Irving Garza

There seems to be little promise in the interview with the Irving Garza but in order to quiet all rumors, the exact facts should be determined from him.

The Arrest of Oswald

The testimony of George Appley Jr., should be taken by deposition.

Apparently he is the only lay-witness of the arrest of Oswald whose name has been furnished to the Dallas police.

If more non-police witnesses are available as to the arrest of Oswald, their depositions should be taken.

Police Lab

Lieutenant Day

We should make a complete check of the police lab to determine the study of fingerprints and handling of ballistic tests.

Taxi Driver Named Darryl Click

Wells, District Attorney for Dallas County, stated over television that he had information that Oswald had ridden in a taxi cab driven by Darryl Click. What was the origin of this rumor which apparently was false.
