

12/9/69

Dear Paul,

When I discovered that your microfilm so long delayed was wrapped separately, I ran through it rapidly. There seem to be some of which I'd like to have copies. In rare cases, for special purposes, more than one (number indicated), if it is not asking too much. I hope to mail them separately this p.m. if my wife is well enough and I can get to P.O. this afternoon, for you and Jim have been too-long delayed, whether or not it was avoidable.

If you have or could borrow a paper knife, such as photographers use, etc, trimming these on two sides to a standard size, if not on the bottom also, would permit taking two pages on a single, legal size (perhaps) xerox sheet.

CD6:28-31 (I do not have before 28 in my stuff-that is an odd beginning)
20:20-1 (I thought I had but do not. Remember, clearly) 21-6).
126:29 (last sentence fascinates. I have-and I think you copied ~~25~~)
131:2
151:3-6. Note list I sent you. Eventually, when I can, I'll tell you why and you'll see this is long Wall! Two, please.
206:7-8,16-7,132 (my card does not indicate, so I think it is in O in N) but 132 seems to be part of a series on his application at a parking lot nr. Ruby's.)
405:11-14,17-22 (two, please-and do not last par 22-what a strange way to investigate Ferrie. Think we should seek to trace this further).
533-54 deal with deM. I'd like an extra copy to give to one who may carry further if any is not on the batch Gary got, which I have).
735:383,286
913:79.83 only

In the unnumbered files (where some are numbered:

INV 3-13:

JLR to JEH (undated); 3/6/64 (I copy first page extra, pls

With no enclosures, this can properly go fourth class, so I'll insure it that way, special handling. I'll add the file I've been holding, to save cost and insure. This, it is not enclosed.

Hurriedly,

HW
