Deer Mike.

There was a slight error in what was copied for me yesterday, from the Adrian Alba file. The original file is CD 7. The pages are 192-204. When I got home and checked this, page 199 was missing. I'd appreciate it if you could replace this for me. I presume two pages merely stuck together in the copying.

A copy of CD 1482 is in the GAI-State file. Werhaps it is morely the first page. It recars to a letter Slewson wrote Frank at State, dated 8/30/64. I did not see that in this file. I would eppreciate a copy of it. The subject is the writing of Jean Deniel in The New Republic magazine, speeches by Castro and officials of our government, etc.

ou will also recal! I showed you various documents in this files of which I would went copies where there was a chance copies in other files might be more legible. I remind you of this before you get those I here order made, for some in this file are rether indistinct.

When I returned this file, I told the clerk I bed put a spip with my name on it on a single short document. This was to save you time in getting it to copy for me. It should be there when you examin this file to fill this order.

CD8:1-10 CD9:1-14 CD10:6-7

I now note the Slewson memo referred to above is in this file. It is probably what I marked to save you time in searching. If there are other documents relevant to this of which you know, in other files, I'd like to know of them so I can examine them next time I'm th.

Thank you very much. Please check on the state of my account, so I can see to it the funds ere not exhausted.

Sincerely.

Harold Weisberg
