Dear Harold,

This is extremely important info, and I think you know better than most what to do with it. To wit: I was informed, last night, that the tapes of 12 hours of Oswald's interrogations, which were secretly recorded by Dallas Captain (police captain) Will Fritz, will be released soon by someone who has direct copies of them. (whose name, obviously, cannot be revealed at this time.) I don't recall if I mentioned this fact of the recordings to you before..I seem to recollect that I once did. I was originally assured that I, myself, was to be given them by Mr. X but he has reneged on this for his "own reasons"..so. With them, I was going to call a N.Y.Press-Club conference and play some of it, etc. I was also told that these tapes(copies) were in the hands of several people for safety's sake which I can easily understand. I have been up practically the whole (last) night thinking which researcher could provide the best, nation-wide publicity when this event occurs and I have decided, after much thought, indeed, that you, Harold, should be the one to do it. Obviously, when THIS story breaks, its repercussions will be devastating, to say the least. But I thought/think that with YOUR media connections, you can best inform them of this development, so that it can be handled the RIGHT way. Although I obviously cannot say TOO MUCH about this development, if you know anyone, which I'm sure you do who wants to talk to me about it, they can reach me at above phone # or new address. Think it over because this will be dynamite! I'll defer to you on this one, Harold..OK??..OK!!

yours-in-struggle,
