Re. Wes Whitten 1401 to "t., NW Vashington, D.C. 20036

Dear Pes,

de hashle. III.

The enclosed Document Number 1329-484-C is from the GLA this week.

The copy I was provided is not much clearer than the copy I've made for you.

This may be the granddaddy of all the Castro kickback b.s.

And of much more for which I know of no proof that surfaced in the intervening to years and three weeks.

But the CIA apparently did not consider it all that bad.

It used + rather than \* so maybe we can infer that they considered it all a +7

If not they should have. Alas.

This is one of the more durable mythologies.

I den't recall that Jack used it any earlier than this, early 1967.

I have a trace on it back to late 1963, Hexico City.

The masking on this record was by the Cla.

It would appear to include the author of the memo.

Nothing personal except

Best wishes.
